BCO-100

BCO-100

Banknote Organizer

Up to 50,000 notes per hour for large volumes

The BCO-100 is a high-performance **banknote organizer** designed for high-volume cash handling environments. With a processing speed of **40,000 to 50,000 notes per hour**, it delivers exceptional efficiency for banking and financial operations. Its compact structure and **maintenance-friendly** design minimize downtime, while its **stepped speed regulation** system adapts intuitively to different operating needs.

Features

- High efficiency: 40,000-50,000 notes/hour
- 10,000-note input module
- 4 output trays
- Max. speed of 11.1-13.8 notes per second
- Vibration and alignment module
- Stepped speed regulation
- Intuitive operation
- Compact structure
- Convenient maintenance
- Low noise: 65 dB max. when empty

Technical Specifications

Specification	Detail
Speed	40,000-50,000 notes/hour
Input module	Capacity: 10,000 notes
Vibration module	4 output trays
	Max. speed 11.1-13.8 notes/s
Noise	65 dB max. when empty
Power supply	100-240 V +/-10%, 50/60 Hz
Input module dimensions	400 × 2,050 × 700 mm
Vibration module dimensions	250 × 1,000 × 350 mm
Weight	70 kg (excluding work table)
