

BDM-10

Compact Under-Counter Depository

Secure high-speed deposits in tight spaces

The BDM-10 is a **compact** cash deposit machine designed to sit **under the counter**, ideal for space-constrained environments. It offers a high deposit speed of up to **5 notes per second**, a 4,000-note cash bag and a design that allows **maintenance without opening the safe**. With a 7" or 15" touch screen and optional 4G and WiFi connectivity, it fits retail, service stations and branches.

Features

- Compact size for under-counter installation
- Maintenance without opening the safe
- Up to 5 notes per second deposit
- 4,000-note cash bag
- 50-note input (optional 200)
- 20-note output
- 7" or 15" touch screen with privacy filter
- Continuous 7×24 h operation
- i5 PC with 8 GB RAM and 256 GB SSD
- Compatible with Win10 and Debian
- Optional 4G and WiFi connectivity
- 2" thermal receipt printer
- 8 mm metal plate safe
- Optional barcode reader
