BDM-600

Cassette-Based Deposit Machine

5 cassettes of 3,400 notes for
maximum operating convenience

The BDM-600 is a **high-performance** cash deposit machine that uses **acceptance cassettes** instead of a cash bag for greater operating convenience: 5 cassettes of **3,400 notes** each. Designed to ATM standards with components certified **EMV I, EMV II and PCI** as standard, compatible with the NDC application and equipped with a 19" screen, 4-array microphone, proximity detection and the most advanced security features.

Features

- Acceptance cassettes instead of a bag
- 5 cassettes of 3,400 notes each
- Designed to ATM standards
- EMV I, EMV II and PCI certifications
- Compatible with NDC application
- Speed of 12 notes per second
