

BM-40

Automatic Banknote Banding Machine

High-speed thermal banding for treasuries

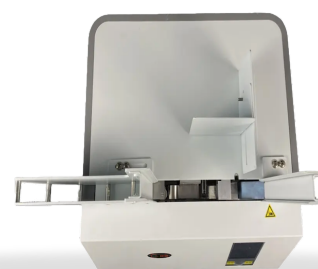

The BM-40 is a high-speed **automatic banknote banding machine** with thermal sealing, able to band **20 to 24 bundles per minute** with a 40 mm band. Compatible with 150-meter rolls of **paper and OPP film**, it preheats in under 4 minutes and is operated from a color **LCD touch screen**. Its compact format and low consumption make it ideal for banks, treasuries and cash processing centers.

Features

- Automatic banding by thermal sealing
- 20 to 24 bundles per minute
- Preheating in under 4 minutes
- 40 mm wide band
- 150-meter rolls
- Compatible with paper and OPP film
- Color LCD touch screen
- Roller feeding
- Compact desktop format
- Low consumption: only 50 W
- 12-month warranty
- Free technical support included
