BR R900

Cash Recycling Terminal

Compact, easy-to-integrate note and coin recycling

The BR Series R900 is a compact, easy-to-deploy **cash recycling terminal** that processes up to **5 notes per second** and **12 coins per second**. Its **modular** design with customization support makes cash management more convenient, reducing operating and maintenance costs and complexity, with easy integration compatible with the latest **Windows and Linux** versions.

Features

- High speed: 5 notes/s and 12 coins/s
- Compact and easy to deploy
- Modular design with customization support
- Easy integration with Windows and Linux
- 50-note input (optional 200)
- 20-note output
- 2-drum recycling cassette
- 3,000-note acceptance cassette
- 500-note loading cassette
- 30-note counterfeit cassette
- Coin module at 12 coins per second
- 1,450-coin mixed capacity
- Up to 11 coin denominations
- Lower operating and maintenance cost
