

BS-C110P

Modular Cheque Scanner

Duplex image capture with
multifunction printing

The BS-C110P is a high-performance **modular cheque scanner** with a flexible design and multifunctional integration. It features **duplex** image capture through multiple light sources at 300 mm/s, built-in **multifunction printing** capability and support for multiple interfaces. Its **600-cheque** main cassette with a 30-cheque retract cassette and **E13B and CMC7** MICR reading make it ideal for high-demand banking environments.

Features

- Modular, easy-maintenance design
- Duplex image capture
- Multiple light sources
- Scanning speed of 300 mm/s
- 300 × 300 DPI resolution
- E13B and CMC7 MICR reading
- Built-in multifunction printing
- 600-cheque main cassette
- 30-cheque retract cassette
- Cassette lock included
- Automatic document alignment
- Double-feed detection
- Tiff G4, JPEG and BMP images
- High-speed USB 2.0 interface

Technical Specifications

Specification	Detail
Scanning	Duplex, multiple light sources
Scanning speed	300 mm/s
Resolution	300 × 300 DPI
Image type	Tiff G4 / JPEG / BMP
MICR reading	E13B, CMC7
Automatic alignment	Supported
Double-feed detection	Supported
Cheque width	70-100 +/-0.5 mm
Cheque length	175-220 mm
Cassette	Main: 600 cheques
	Retract: 30 cheques
Cassette lock	Supported
Interface	USB 2.0 (high speed)
Power	Molex socket 39-28-8020
