

CKM-100

Automatic Payment Terminal

Comprehensive automated cash management for high traffic

The CKM-100 is an **automatic payment terminal** for comprehensive, automated cash management in high-traffic environments. It combines a **4-cassette** dispenser holding up to 2,000 notes each with a 1,000-note **JCM** acceptor, a Full HD 32" or 21.5" portrait **PCAP touch screen** and built-in printers for **TITO** tickets and thermal receipts. Its modular front-access design, dual-lock safe and UPS ensure fast, safe, reliable operation that reduces time and operating errors.

Features

- Comprehensive automated cash management
- Puloon dispenser with 4 cassettes
- Up to 2,000 notes per cassette
- Dispense speed of 4 notes per second
- JCM cash acceptor holding 1,000 notes
- Portrait PCAP touch screen, 32" or 21.5"
- Full HD 1920 × 1080 resolution
- 62 mm Nanoprix TITO printer
- 80 mm thermal printer
- Safe with digital and mechanical lock
- Modular front-maintenance design
- Industrial Intel i3 PC, 8 GB RAM, 128 GB SSD
- UPS backup against power outages
- Cold-rolled steel cabinet
- Configurable currencies: ARS, USD, EUR, others
- Continuous indoor operation

Technical Specifications

Specification	Detail
Touch screen	PCAP 10-point, portrait, 32" / 21.5", Full HD 1920 × 1080
Industrial PC	Intel i3 8th gen, 8 GB RAM, 128 GB SSD, licensed Windows 10 Pro
Dispenser	Puloon ECDM400 or LCDM4000, 4 cassettes, 4 notes/second
Cassette capacity	ECDM400: 2,000 notes per cassette LCDM4000: 1,000 notes per cassette
Cash acceptor	JCM — 1,000-note capacity
Supported currencies	Configurable (ARS, USD, EUR, others)
Printers	Nanoprix TITO 62 mm; thermal 80 mm
Security	Safe with digital and mechanical lock
Cabinet	Cold-rolled steel, indoor use, front maintenance
Cabinet thickness	Lower 4.54 mm; upper 2.0 mm
UPS	Backup against power outages
Interfaces	LAN and USB ports
Included accessories	Fan, internal speaker, amplifier
Power supply	230 V / 50 Hz, wide-range PSU
