

DP-8122

Compact Banknote Sorter

Dual CIS with serial number reading
in a compact format

The DP-8122 is a **high-performance** banknote sorter for back office in an ultra-compact format. Equipped with **one main pocket** and a reject pocket, it detects **counterfeit, damaged or unfit notes** through dual CIS, magnetic, infrared and ultraviolet sensors, with serial number reading. Its bright 5" TFT touch screen, low jam rate and easy integration make it ideal for branches and retail.

Features

- Compact format: 271 × 264 × 260 mm
- 900 notes per minute
- One main pocket plus reject pocket
