

NC71CDS

OEM Banknote Validator

High-speed multi-currency authentication for deposit systems

The NC71CDS is an **OEM banknote validator** designed to authenticate multiple currencies and denominations quickly, efficiently and accurately. It sets a new performance standard, backed by thousands of **Masterwork Automodules** cash deposit systems installed worldwide that protect cash and significantly optimize daily revenue processing time in points of sale and retail operations.

Features

- Deposit speed of 1,000 notes per minute
- High-precision banknote authentication
- Serial number (SN) reading
- 109 currencies available
- Up to 32 currencies per unit
- 500-note hopper
- 400-note escrow
- 100-note reject pocket
- OEM integration into deposit systems
- LAN interface for integration
- DC 12 V / 24 V power supply
- Low consumption: only 25 W

Technical Specifications

Specification	Detail
Detection	Banknote authentication
	Serial number (SN) reading
