

Q-Case

SQS Security System

Smart IBNS protection for cash transport

The Cennox **SQS Q-Case** (Security Qube System) is the most advanced cash transport security system on the market. Through innovative **IBNS** (Intelligent Banknote Neutralisation System) ultra-fast staining technology, it provides comprehensive cash protection at the ATM, at the curb and in transit. This smart, multipurpose, **extremely lightweight** case is the most advanced solution for transporting bulk cash and ATM cassettes, without weapons or costly armored transport.

Features

- Minimizes robbery and theft risk
- Minimizes shrinkage and internal fraud
- Patented ultra-fast staining
- Protection without weapons or armored trucks
- Lower operating and capital costs
- Light weight with high load capacity
- Top loading with low weight distribution
- The smallest footprint on the market
- Smart, modular, flexible racks
- Load and unload with the case on the rack
- Electronic key system on all models
- High product uptime
- Minimal on-site operation time
- Minimizes risk for staff and public
