

SW-100

Banknote Shrink Wrapping Machine

Pre-packing, thermal printing and shrink wrapping all in one

The SW-100 is a compact **cash shrink wrapping system** that integrates **pre-packing, thermal printing and shrink wrapping** in a single unit. Pre-packing leaves the bundle compact and tidy; thermal printing records **bank, operator and time** on the band to trace every bundle; and shrink wrapping keeps notes clean, moisture-proof and mold-proof. It processes up to **200 bundles per hour** with high-strength biodegradable consumables and a large touch screen showing the process and warnings.

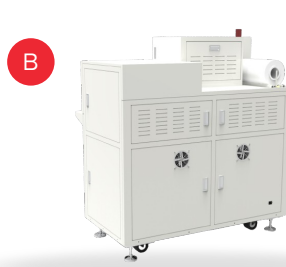

Features

- Pre-packing, printing and shrinking in one
- Up to 200 bundles per hour
- 1,000-note bundles
- Bank, operator and time printed on the band
- Full traceability of every bundle

- Moisture and mold-proof packaging
- Large, simple touch screen
- Process and warning display
- 75 mm PE pre-packing film
- 340 mm POF shrink film
- Biodegradable anti-aging consumables
- Low noise: 70 dB max.

Technical Specifications

Specification	Detail
Bundle packing	1,000 notes per bundle
Packing speed	200 bundles per hour
Operating noise	70 dB max.
Pre-packing film	PE, 75 mm wide, 0.05-0.08 mm thick
Shrink film	POF, 340 mm wide, 0.019-0.04 mm thick
Transfer ribbon	Thermal, 55 mm wide
Working power	Average < 2 kW; peak < 3 kW
Voltage	AC 220 V +/-10%, 50 Hz
Dimensions (L×W×H)	1,297 × 673 × 1,391 mm
Net weight	350 kg
