

Softcar CIT

Light CIT Vehicle

The safe, economical alternative to the traditional armored truck

The Cennox **Softcar CIT Vehicle** is the ultimate cost-efficient cash-in-transit solution. Combining Cennox **CIT security cases** with a specially converted commercial vehicle, it creates the most economical and secure alternative to the costly traditional armored truck. Light and customizable, the Softcar configuration can be **retrofitted** to any commercial vehicle, replacing heavy armor, with **Track & Trace** monitoring and IBNS banknote neutralization systems that remove the incentive for attack.

Features

- Cheaper than a traditional armored truck
- Lower purchase, operating and crew cost
- Reduction of potential attacks
- No access to cash inside the vehicle
- Access to narrow locations
- Convenient parking
- No special driving license required
- Lower risk of injury for the guard
- Track & Trace monitoring
- Ultra-light, robust SQS system
- For bulk cash and ATM cassettes
- Cennox cash trackers
- Deterrent smoke and ink packs
- Retrofit onto any commercial vehicle
